Feather Touch  
Control Panel

In-built Air  
Quality Indicator

Equipped with  
HEPA

Automatic Filter  
Replacement Alert

Sleep Mode

The Kores range of Air Purifiers are an innovation in air technology designed to remove pollutants from your air ranging in size from large particles down to airborne bacteria, harmful gases and unwanted odours for spaces up to 390 square feet.

Built in with Intelligent Functions, the products automatically showcase the Air Quality through unique colours on the Feather Touch Panel.

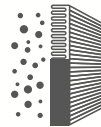

Its the modern, efficient, convenient and the perfect solution for allergy-sufferers, pet owners or anyone wanting clean and healthy air in their home or workspace.

## FEATURES

### Well Being Is Just A Touch Away

The Touch Panel on the Kores Aerem Models responds with a feather touch ensuring the machine works with ease.

### Faster Air Purification

A High CADR indicates a larger quantity of pure air in your surroundings. We ensure that health always remains a priority so you can work better and be happier.

### Air Purification You Can See

Get in the know about the Air Quality around you.

Red Indicates Poor Air Quality, Green indicates Satisfactory Quality and Blue denotes best Air Quality

### Always Know When Time is Running Out

The Automatic Filter Replacement automatically pops up when the Filter needs to be replaced.

The Filters available for replacement are HEPA and Carbon Filters.

### Child Safe, Always

Never let your child's curiosity come in the way of malfunction to the machine. Lock the machine after setting the functions and let the Air Purifier do its work.

Dimensions	322 mm x 180 mm x 535 mm	380 mm x 240 mm x 550 mm
Net Weight	5.5 kg	6.1 kg

# Because We Care

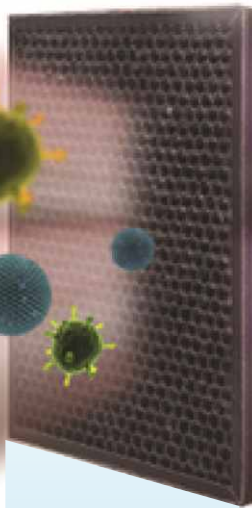

Superior air filtration captures up to 99.97% of the air pollutants in your home or workspace.

1

## Pre Filter

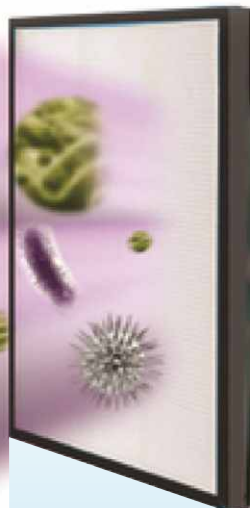

Pre - filter captures big particles like hair of human or pet, paper scraps.

2

## True HEPA Filter

True HEPA captures upto 99.99% of airborne particules such as PM 2.5, smoking, bacteria, pollen, mold and dust as small as 0.3 microns

3

## Activated Carbon Filter

Activated carbon filter captures harmful chemicals like benzene, toluene, formaldehyde, ammonia and common odours.

4

## Ionizer Technology

The Ionizer Technology releases anion to absorb and centralise dust and powders in the air. It also kills airborne bacteria for air purifying purpose and contributes to extra oxygen content in blood
