(HP LaserJet Pro M202dw)

Just print—protected and connected

- Connect, manage, and help keep data secure with built-in features.
- Start printing right away—automatically connect to your wireless network, using HP Auto Wireless Connect.²
- Easily print from virtually anywhere in the office with Ethernet and wireless connectivity.¹
- Connect via USB, and access tools from your PC to manage your printer and supplies.

Intuitive features for a fast finish

- Save time and help reduce paper costs, using reliable automatic two-sided printing.
- Speed through printing tasks—using the simple control panel.
- Work with less wait. Step up your productivity with fast print speeds of up to 26 pages per minute.³
- Start working, right out of the box—full-capacity, 1,500-page toner cartridge included.⁸

Printing made mobile⁷

- Easily send print jobs wirelessly without a network.⁴
- Easily print from mobile devices at work, home, or on-the-go with this Mopria-certified printer.^{5,7}
- Quickly print from your iPhone®, iPad®, and iPod touch®, using Apple® AirPrint™—no setup or apps required.⁶

¹ Wireless performance is dependent on physical environment and distance from access point, and may be limited during active VPN connections.

² HP Auto Wireless Connect may not be available for all system configurations. Wireless performance is dependent on physical environment and distance from access point. For information on compatibility, visit hp.com/go/autowirelessconnect

³ Printing speed measured using ISO/IEC 24734 and excludes first set of test documents. For more information, see hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver, and document complexity.

⁴ Wireless direct printing is standard on the HP LaserJet Pro M202dw only. Mobile device needs to be connected directly to the WiFi network of a wireless direct-capable printer prior to printing. Depending on mobile device, an app or driver may also be required. Wireless performance is dependent on physical environment and distance from the access point in the printer.

⁵ Requires an Internet connection to an HP web-enabled printer and HP ePrint account registration. For a list of eligible printers, supported documents and image types, and other HP ePrint details, see hpconnected.com. Mobile devices require Internet connection and email capability. May require wireless access point. Separately purchased data plans or usage fees may apply. Print times and connection speeds may vary.

⁶ Supports Apple® OS X® Lion, OS X Mountain Lion, and the following devices running iOS 4.2 or later: iPad® (all models), iPhone® (3GS or later), and iPod touch® (3rd generation or later). Works with HP's AirPrint-enabled printers and requires the printer be connected to the same network as your OS X or iOS device. Performance is dependent on physical environment and distance from the wireless access point. Wireless operations are compatible with 2.4 GHz routers only.

⁷ Local printing requires mobile device and printer to be on the same wireless network or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. App or software and HP ePrint account registration may also be required. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See hp.com/go/mobileprinting for more details. Some features require purchase of optional module.

⁸ Declared yield value in accordance with ISO/IEC 19752 and continuous printing. Actual yields vary considerably based on images printed and other factors. For more information, visit: hp.com/go/learnaboutsups

³ Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Colour LaserJet devices, and enables appropriate deployment of printers and MFPS to satisfy the demands of connected individuals or groups.

⁴ HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.

⁵ Values subject to change. See hp.com/go/lip1560_regulatory for current information. Power numbers are the highest values measured using all standard voltages. Measured according to ISO 7779 and declared in accordance with ISO 9296; values are subject to change.

⁶ Acoustic values are subject to change. For current information see hp.com/support. Configuration tested: base model, simplex printing, A4 paper at an average of 42 ppm.
