- 19.1 During evaluation of tenders, the Purchaser may, at its discretion, ask the Tenderer for a clarification of its tender. The request for clarification and the response shall be in writing and no change in prices or substance of the tender shall be sought, offered or permitted.

20. Preliminary Examination

- 20.1 The Purchaser will examine the tenders to determine whether they are complete, whether any computational errors have been made, whether required sureties have been furnished, whether the documents have been properly signed, and whether the tenders are generally in order.
- 20.1.1 Where the Tenderer has quoted for more than one schedule, if the tender security furnished is inadequate for all the schedules, the Purchaser shall take the price tender into account only to the extent the tender is secured. For this purpose, the extent to which the tender is secured shall be determined by evaluating the requirement of tender security to be furnished for the schedule included in the tender (offer) in the serial order of the Schedule of Requirements of the Tender document.
- 20.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If there is a discrepancy between words and figures, the lower of the two will prevail. If the Manufacturer's does not accept the correction of errors, its tender will be rejected and its tender security may be forfeited.
- 20.3 The Purchaser may waive any minor informality or non-conformity or irregularity in a tender which does not constitute a material deviation, provided such a waiver does not prejudice or affect the relative ranking of any Tenderer.
- 20.4 Prior to the detailed evaluation, pursuant to ITB Clause 23, the Purchaser will determine the substantial responsiveness of each tender to the tender documents. For purposes of these Clauses, a substantially responsive tender is one which conforms to all the terms and conditions of the tender documents without material deviations. Deviations from or objections or reservations to critical provisions such as those concerning Performance Security (GCC Clause 6), Warranty (GCC Clause 14), Force Majeure (GCC Clause 24), Limitation of liability (GCC Clause 28), Applicable law (GCC Clause 30), and Taxes & Duties (GCC Clause 32) will be deemed to be a material deviation. The Purchaser's determination of a tender's responsiveness is to be based on the contents of the tender itself without recourse to extrinsic evidence.
- 20.5 If a tender is not substantially responsive, it will be rejected by the Purchaser and may not subsequently be made responsive by the Tenderer by correction of the non-conformity.

21. Evaluation and Comparison of Tenders

- 21.1 The Purchaser will evaluate and compare the tenders which have been determined to be substantially responsive, pursuant to ITT Clause 22 for each schedule separately. No tender will be considered if the complete requirements covered in the schedule is not included in the tender. However, as stated in ITT Clause 9, Tenderers are allowed the option to tender for any one or more schedules and to offer discounts for combined schedules. These discounts will be taken into account in the evaluation of the tenders so as to determine the tender or combination of tenders offering the lowest evaluated cost for the Purchaser in deciding award(s) for each schedule.
- 21.2 The Purchaser's evaluation of a tender will exclude and not take into account:
- (a) Any allowance for price adjustment during the period of execution of the Contract, if provided in the tender.
- 21.3 The Purchaser's evaluation of a tender will take into account, in addition to the tender price

(Ex-factory/ex-warehouse/off-the-shelf price of the goods offered from within India, such price to include all costs as well as duties and taxes paid or payable on components and raw material incorporated or to be incorporated in the goods, and Excise duty on the finished goods, if payable) and price of incidental services, the following factors, in the manner and to the extent indicated in ITT Clause 23.4 and in the Technical Specifications:

- a) cost of inland transportation, insurance and other costs within India incidental to the delivery of the goods to their final destination;
- b) Delivery schedule offered in the tender;
- c) Deviations in payment schedule from that specified in the Special Conditions of Contract;
- d) The cost of components, mandatory spare parts and service;
- e) The availability in India of spare parts and after-sales services for the goods/ equipment offered in the Tender;
- f) The projected operating and maintenance costs during the life of the equipment; and
- g) The performance and productivity of the equipment offered.

21.4 Pursuant to ITT Clause 23.3, one or more of the following evaluation methods will be applied:

(a) *Inland Transportation, Insurance and Incidentals:*

- (i) Inland transportation, insurance and other incidentals for delivery of goods to the final destination as stated in ITT Clause 9.2 (iii). The above costs will be added to the tender price.

(b) *Delivery Schedule:*

- (i) The Purchaser requires that the goods under the Invitation for Tenders shall be delivered at the time specified in the Schedule of Requirements. The estimated time of arrival of the goods at the project site should be calculated for each tender after allowing for reasonable transportation time. Treating the date as per schedule of requirements as the base, a delivery "adjustment" will be calculated for other tenders at 2% of the ex-factory price including excise duty for each month of delay beyond the base and this will be added to the tender price for evaluation. No credit will be given to earlier deliveries and tenders offering delivery beyond **60 days for imported goods and 30 days for indigenous goods** of stipulated delivery period will be treated as unresponsive.

(c) *Deviation in Payment Schedule:*

The Special Conditions of Contract stipulate the payment schedule offered by the Purchaser. If a tender deviate from the schedule and if such deviation is considered acceptable to the Purchaser, the tender will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the tender as compared to those stipulated in this invitation, at a rate of 12 % percent per annum.

(d) *Cost of Spare Parts:*

- (i) Appendix to the Technical Specifications lists the items and quantities of major assemblies, components and selected items of spare parts, likely to be required

during the initial three years period of operation of the plant. The total cost of these items and quantities at the unit prices quoted in each bid will be added to the tender price.

OR

- (ii) The Purchaser will draw up a list of high usage and high value items of components and spare parts along with estimated quantities of usage in the initial three years period of operation. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the tenderer and added to the tender price.

OR

- (iii) The Purchaser will estimate the cost of spare parts usage in the initial three years period of operation, based on information furnished by each tenderer as well as on past experience of the Purchaser or other Purchasers in similar situations. Such costs shall be added to the tender price for evaluation.

- (e) *Spare Parts and After Sales Service Facilities in India:*

The cost to the Purchaser of establishing the minimum service facilities and parts inventories, as outlined elsewhere in the tender documents, if quoted separately, shall be added to the tender price.

- (f) *Operating and Maintenance Costs:*

Since the operating and maintenance costs of the equipment under procurement form a major part of the life cycle cost of the equipment, these costs will be evaluated as follows:

- (i) Equipment /Material Testing Instruments shall be based on per year for three years after warranty at Reagents/Chemicals/Disposables price of Rupees.....
- (ii) Spare parts costs shall be based on each case of operation based on the guaranteed figures provided by the Tenderer in the response to AMC, of the Technical Specifications or based on past actual figures for similar equipment already in use with the Purchaser; and provided by the Tenderer in response to
- (iii) All future costs will be discounted to present value at a discount factor of 10%.

- (g) *Performance and Productivity of the Equipment:*

- (i) Tenderers shall state the guaranteed performance or efficiency in response to the Technical Specification. For each drop-in performance or efficiency below the norm of 100, an adjustment of Rs. (Proportionate Value) will be added to the tender price, representing the capitalized cost of additional operating costs over the life of the plant using the methodology specified in the Technical Specifications;

OR

- (ii) Goods offered shall have a minimum productivity specified under the relevant provisions in Technical Specifications to be considered responsive. Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the bid and adjustment will be added to the tender price using the methodology specified in the

22. Contacting the Purchaser

- 22.1 Subject to ITT Clause 21, no Tenderer shall contact the Purchaser on any matter relating to its tender, from the time of the tender opening to the time the Contract is awarded. If the tenderer wishes to bring additional information to the notice of the purchaser, it should do so in writing.

F. Award of Contract

- 23.1 In the absence of prequalification, the Purchaser will determine to its satisfaction whether the Tenderer that is selected as having submitted the lowest evaluated responsive tender meets the criteria specified in ITT Clause 11.2 (b) and is qualified to perform the contract satisfactorily.
- 23.2 The determination will take into account the Tenderer's financial, technical and production capabilities. It will be based upon an examination of the documentary evidence of the Tenderer's qualifications submitted by the Tenderer, pursuant to ITT Clause 11, as well as such other information as the Purchaser deems necessary and appropriate.
- 23.3 An affirmative determination will be a prerequisite for award of the Contract to the Tenderer. 24. Award Criteria

- 27.2 The notification of award will constitute the formation of the Contract.
- 27.3 Upon the successful Tenderer's furnishing of performance security pursuant to ITT Clause 31, the Purchaser will promptly notify the name of the winning Tenderer to each unsuccessful Tenderer and will discharge its earnest money deposit, pursuant to ITT Clause 13.
- 27.4 If, after notification of award, a Tenderer wish to ascertain the grounds on which its tender was not selected, it should address its request to the Purchaser. The Purchaser will promptly respond in writing to the unsuccessful Tenderer.

28. Signing of Contract
