JAIPUR'S LEADING FINE JEWELRY MANUFACTURER

Valentine Jewellery

EXQUISITE CRAFT. INSPIRING LEGACY.

100+ years of industry experience

A century old legacy of refined craftsmanship, Valentine Jaipur Group began its modest journey as pioneers in the Emerald trade in the 1920s. Valentine Gold and Valentine Silver, a subsidiary of the Valentine Jaipur Group, are export oriented manufacturing unit that solely specializes in fine jewelry studded with diamonds and colored gemstones.

Ingenious. Bespoke. Committed.

What began as a visionary idea of creating high quality impeccable fine jewelry has transformed over the years into a legacy of commitment. Our core values of integrity, accountability and ethical work culture grant us great eminence as an established identity in the gems and jewelry industry.

Our company

Misión

We are committed to provide the best of what our clients need through our flair for innovation. Trust and loyalty stand above all else in our internal and external operations. We work incessantly towards not only strengthening our client relationship, but also allow us to become their most preferred jewelry supplier.

Why India?

Mecca of Diamond Sourcing

14 out of 15 diamonds are cut and polished in India allowing tremendous cost benefits in sourcing all kinds of diamonds.

Gemstone Capital of the World

Jaipur's gemstone industry is world renowned for its unparalleled precious and semi-precious colored gemstone supply.

Abundance of Skilled Workforce

A huge supply of skilled craftsmen with state of the art infrastructure, machinery and equipments aid in boosting our manufacturing capabilities.

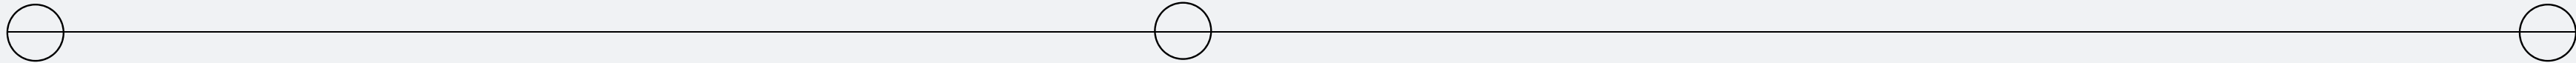

Special Economic Zone

Government allocated zones to promote hassle free export of gems and jewelry along with tax incentives help Indian manufacturers to lower their costs that are passed onto our clients.

Responsible Manufacturing

We make sure the raw material used is ethically sourced and conflict free as well as take utmost care in following the best business practices.

Our Expertise

In-House Designers

A big team of jewelry designers, CAD Developers to create jewelry collections specific to the needs of our clients.

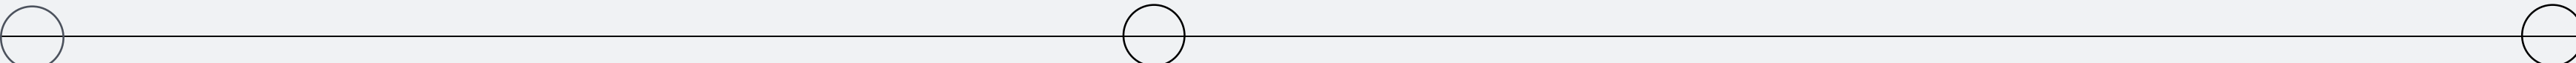

Cellular Manufacturing

We have deployed cell structures within our manufacturing unit with every cell comprising of a dedicated team working directly and intensively to breathe life into our client's brand.

Pre & Post Sales Service

Our clients are our biggest supporters and we strive to provide them with the best customer service they deserve. Our administrative team is easily reachable to help our clients in all ways possible.

Our Advantage

Price Advantage

The cost benefits from procuring diamonds and color stones in India along with lower labour costs are passed down as a direct price advantage that significantly adds to our client's profitability.

Consistent Quality

Absolute quality control is ensured. Every finished jewelry piece passes a meticulous system of pre-defined quality control parameters before it is dispatched to our clients.

Design R&D

Research and Innovation is the driving force in conceptualising designs and bringing them to life. We follow a very client centric approach and work closely on developing trendsetting designs with our clients.

Endless Customizations

Metal Karatage

We manufacture fine jewelry in Gold metal with the following karatage: 18K, 14K, 10K and 9K

Metal Color

Our jewelry is available in White, Yellow and Rose Gold along with two-tone and three-tone color options.

Diamonds

We specialise in G/H-SI and I/J-VS diamonds and can also procure diamonds as per client requirements.

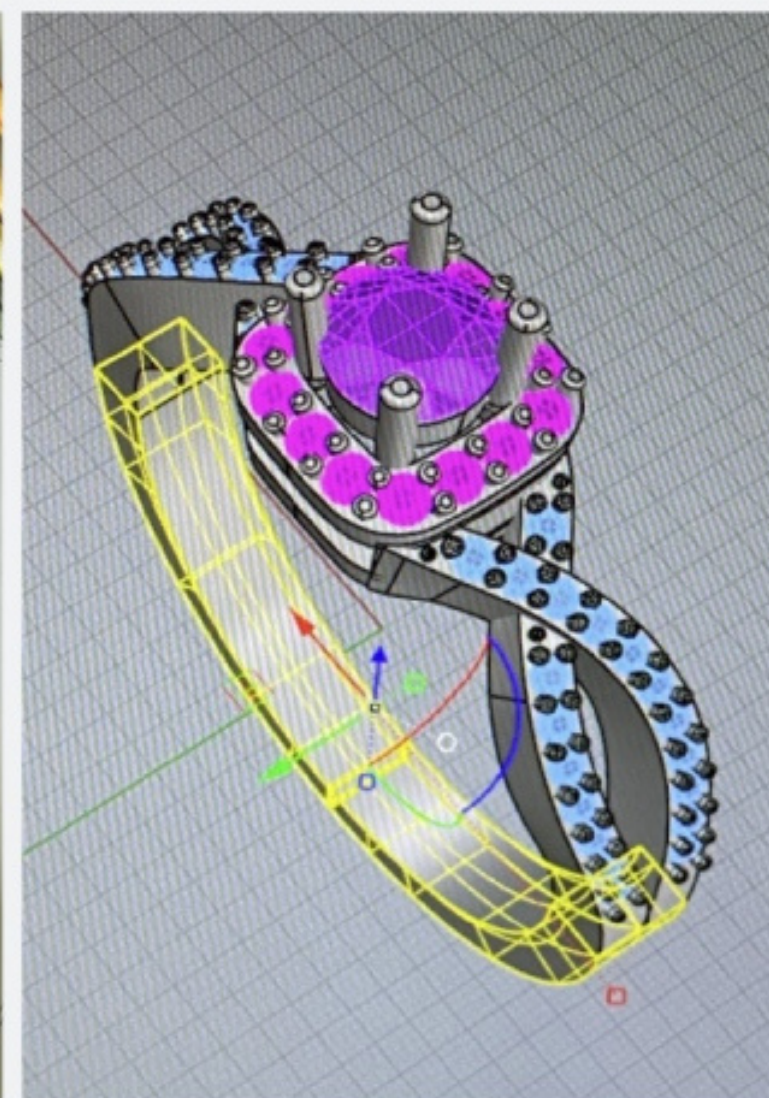

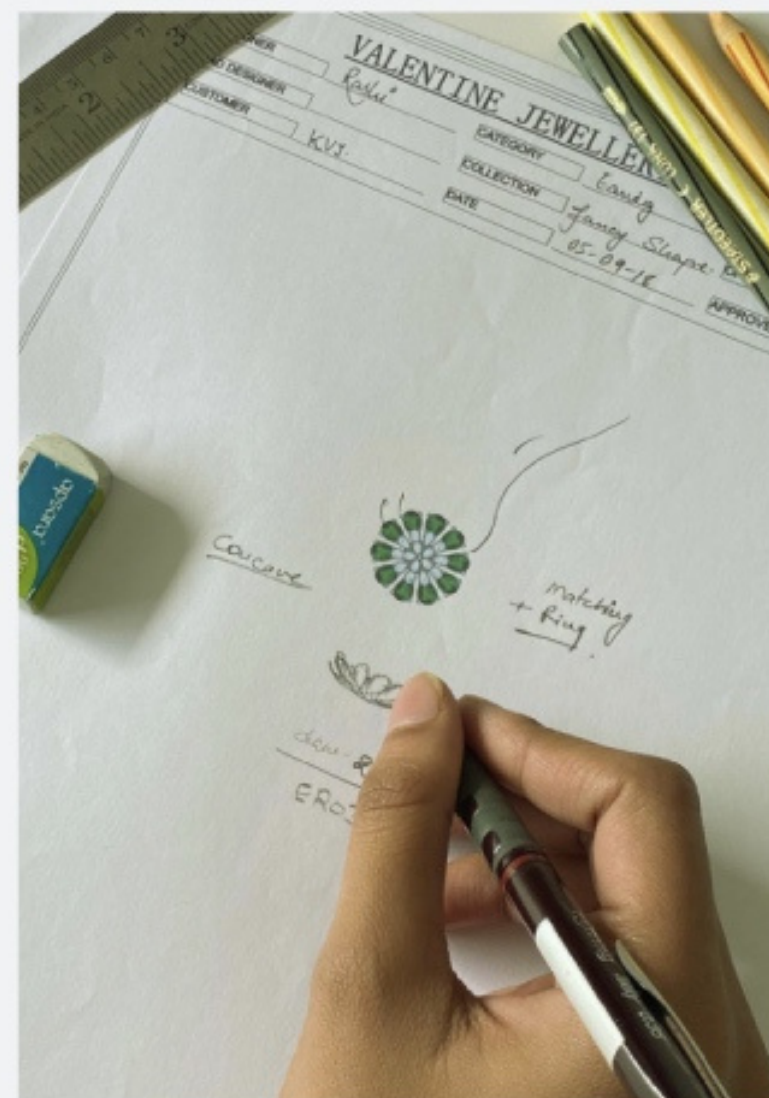

Color Gemstones

While we exclusively deal in Emerald, Ruby, Sapphire and Tanzanite, we can procure any color stone as per client requirements.

Custom Design

Our design team and CAD/CAM designers can do endless design customisations to not just rings but all jewelry types.

PRODUCT DEVELOPMENT PROCESS

Every piece of jewelry is envisioned in the heart of the client and crafted in the mind of the designer. Our design process starts with a combination of extensive online research and offline market study to bring out the artistic originality in the outline of the design. Our in-house team of CAD/CAM designers and 3D Printing equipments allow us to continuously experiment design forms and materials.

JEWELRY MANUFACTURING PROCESS

With an integration of a complete end-to-end creative process, under the same roof, we have been able to establish a strong, reliable & cost-effective supply, sustainable & responsible manufacturing, and on-time deliveries of finished products; the benefits of which consistently add significant value to the business growth as well as to the bottom line of our clients.

OUR JEWELRY MANUFACTURING UNITS

We have 3 state-of-the-art jewelry manufacturing units with a workforce of 600+ people, allowing us to achieve end to end supply chain capabilities from design conceptualisation to dispatch of finished jewelry.

Our Global Clientele

While we are experts in
manufacturing fine jewelry, our
specialty lies in the business of
developing long-term relationships.

Our Philosophy

Looking forward to hear from you
