

Rotary Tiller VIVO

Vivo is Specially designed for soft and loose soil. Its light weight technology makes it perfect for puddling in paddy fields. The helical-shaped rotor on the Rotary Tillers decreases horsepower required to drive units. They are designed so they enter the field at different times for more efficiency. These are sized right for subcompact tractors and are designed to till soil for seedbed preparation.

FEATURES

- Less Maintenance.
- High quality blades.
- Regional price.
- 5 ft. Suitable for 30 HP tractor.
- Best suitable for puddling.
