Ax550i CIJ PRINTER

i-Pulse

Print Head & Inks

- Perfect drops every time
- 9 drop quality at 7 drop speeds
- Inks for even the toughest substrates
- Matching of print heads and ink
- Multiple print size options

Domino Design

Designed for Real Life

- Minimum operator intervention
- Service free operation
- IP66 and 316 grade steel cabinet for wash down
- Optimized system, reducing waste
- Compatible for harsh & corrosive environment

i-Techx

Putting you in Control

- Designed for the factory of the future
- Smartphone usability levels
- High Speed Serialisation
- Flexible configurations
- Industry 4.0 compatible

Ax550i CIJ PRINTER

Ax550i CIJ Printer

Suitable For The Harshest Environment

Suitable for even your toughest environment the robust and stackable Ax550i cabinet is marine-grade stainless steel with IP66 environmental protection. An IP66 rating makes this cabinet dust-tight and even able to withstand powerful water-blasting during heavy-duty, production line cleaning.

Clean And Clear Codes

High resolution print messages and multiple line codes are available at your fastest print speeds allowing large amounts of data for high-speed, rapid throughput printing. Higher quality codes are optimised for Machine Readable Codes (MRC) and Optical Character Recognition (OCR) systems helping to reduce rejects.

Smooth Integration

For smooth integration into your production line the Ax-Series supports leading industrial communication protocols simplifying installation and automation on-line. Ax-Series printers can be integrated into networked printer systems providing centralised code templates for error-free coding and integration into your existing business systems such as Enterprise Resource Planning (ERP).

SafeGuard Service Plan

Fix your spares and service costs for up to five years with our SafeGuard packages. Remote diagnostics often gets you up and running immediately or ensures a Domino engineer arrives prepared and with the right genuine spares. Additional options include training, optimisation visits, priority response, remote monitoring and technical helpdesk.

Tech Corner

As a member of EuPIA Domino can supply inks which are manufactured in accordance with current EuPIA Good Manufacturing Practices. Domino inks also take into consideration Inventory Lists like the Swiss List, and we offer a number of solvent bases that are drug precursor free.
