EICHER STARLINE STAFF BUSES

EICHER STARLINE STAFF BUS

We want to ensure, you take your business to a new level of comfort and convenience. So, we have improved the head-rest and introduced LED roof lamps besides making many other upgradations. Also, our improved fascia design and stylish interiors ensure, your commuters have the smoothest ride to work and back.

STYLISH AND PLEASING AESTHETICS

Stylish head lamps

Modern tail lamps

Large windows for ventilation and pleasing outside view

Classy and modern interiors

Sliding driver door window

Stylish front fascia

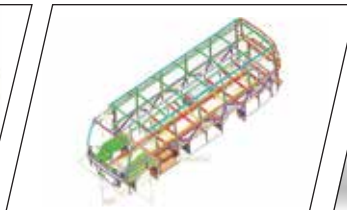

RELIABLE AND STRONG AGGREGATES

Better fuel efficiency due to proven Eicher engine

Low maintenance cost due to sturdier aggregates

Longer life due to stronger body

Superior ride comfort due to large span leaf spring

Highly durable chassis

Tilt and telescopic steering for less driver fatigue

ENHANCED COMFORT AND CONVENIENCE

Ergonomically designed driver area

High Head Rest (HHR) seats

Ergonomically designed gear shifting lever

Comfortable HHR driver seat with ELR seat belt

Safety peep window for better visibility

Better turnaround time

LED roof lamps

Full length sturdy hatrack

Keeping it cool

The new factory fitted air conditioning system in the Starline range keeps the inside cabin cool and fresh even when the outside temperatures are not favorable.

*** Only available in 10.90L Built up Bus with enhanced power.**

STATE-OF-THE-ART BUS MANUFACTURING PLANT

VE Commercial Vehicles Ltd. put a new benchmark to the quality of its buses with its new, state-of-the-art bus manufacturing plant in Baggad, around 50 kilometers from Indore, Madhya Pradesh. With an installed annual production capacity for over 15,000 buses, the site functions effectively for the production of light, medium and heavy-duty buses for domestic and international operations. Spread over a huge expanse of 43 acres, this facility is equipped with high quality robotic paint system - the first of its kind in India - it ensures consistent high gloss premium paint finish. All the paneling parts are 100% tooled up, ensuring high-level precision at joints adhering to higher quality commitments, this plant is also equipped with shower testing technology and complies international GSO as well as AIS safety norms.

Inverter Based Welding

Structure Making Use of Jigs & Fixtures

Robotic Painting for High Gloss Finish

Unique Shell Drop Concept for Body Building
