Hindware Atlantic Water Heater Ondeo 25L was found to be upto 19.6% more energy efficient than an ordinary 5 star 25L Storage Water Heater.

HSIL

ABOUT US

HSIL Ltd. (Incorporated in 1960) is an established player in the Indian sanitary ware market.

Customer Satisfaction, Product Innovation and Quality Control are the three pillars that have fostered high level of trust and respect for the brand Hindware from over 40 million customers in 700+ cities across the nation.

The list of accolades for HSIL Ltd. includes Consumer Validated Super Brand, Asia's Most Promising Brand, Indian Power Brands, Readers Digest Most Trusted Brand and more.

HSIL | **GROUPE ATLANTIC**
EUROPE'S LEADING HEATING VENTILATION
AND AIR CONDITIONING COMPANY

HINDWARE AND GROUPE ATLANTIC JOINT VENTURE

HSIL in association with Groupe Atlantic of France, Europe's leading brand, brings Hindware Atlantic Water Heaters for the Indian consumers. Founded in 1968, Atlantic has remained focused on transforming prevailing energies into lasting well-being through constant technological innovations to provide efficient solutions for water heating. With nearly 1.66 Billion Euros turnover and 7100 employee strength, Atlantic has established a strong worldwide presence, across 70 countries and caters to millions of satisfied customers through its wide range of product portfolio and solutions. In keeping with its long term commitment, Atlantic continues to invest in innovation and quality upgradation to increase customer satisfaction.

Groupe Atlantic is the technology partner of HSIL for world-class, superior quality water heaters. Hindware Atlantic Water Heaters are made in state-of-the-art plants based in Egypt, Ukraine, Thailand and Dehradun(India). With an aim to grow its business and to be the leader in the category, Hindware Atlantic will continue offering top-notch products to its consumers.

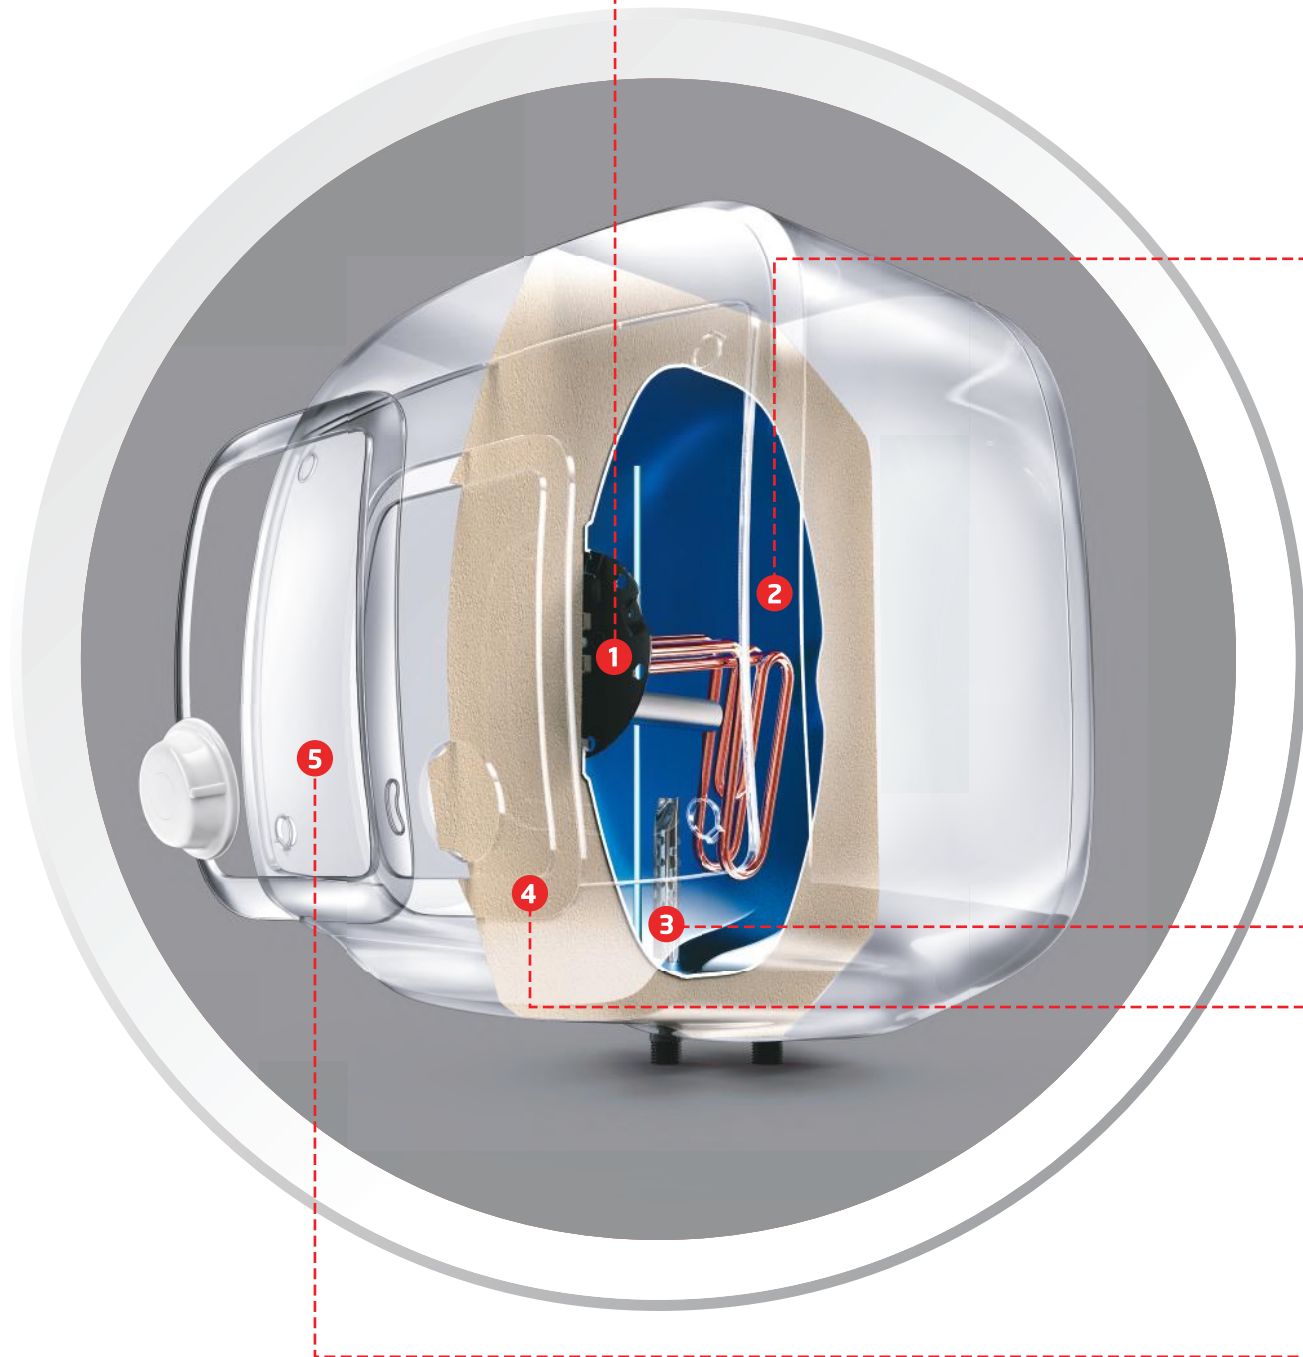

STATE OF THE ART MANUFACTURING PROCESSES, ADHERING TO THE LATEST TECHNOLOGICAL STANDARDS

FIVE INTELLIGENT REASONS FOR ADVANCED THERMAL COMFORT

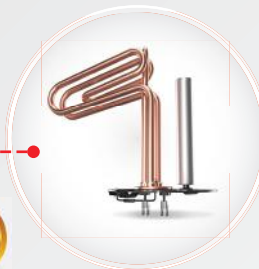

Powered by

Intelli

O'Pro Protection Technology

Patented technology which provides additional protection to the tank and heating element against corrosion.

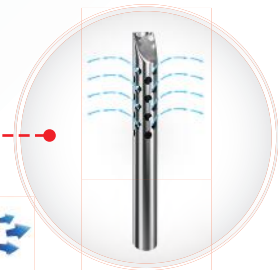

Titanium Core Shield

Titanium Core Shield, baked to perfection at 850° C to provide superior protection against corrosion.

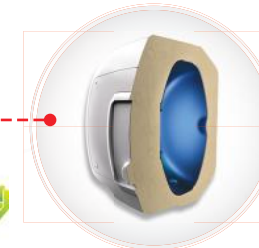

Optimized Inlet Diffuser

Our technology distributes the water gradually and keeps the water temperature equally balanced.

Reinforced Insulation

Injection of liquid foam ensures superior insulation, compact design and retains heat for longer duration. You will never be short of hot water.

Superior Safety, Ingress Protection-IP24

Complete protection against water splashes.

Immersed Thermostat:

Accurate temperature measurement and instant cut-off.

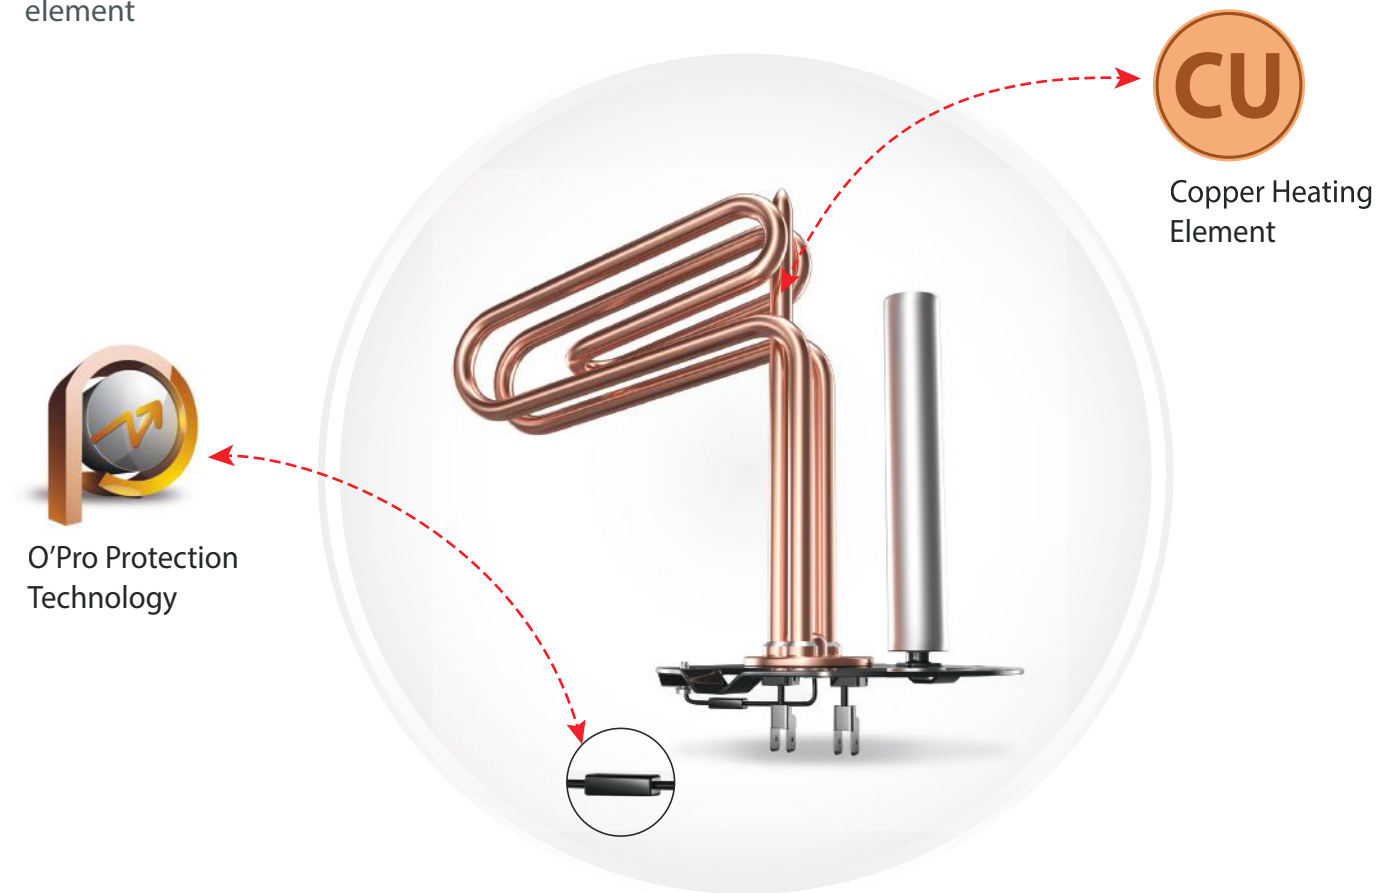

Safety Valve:

Protects against pressure build-up.

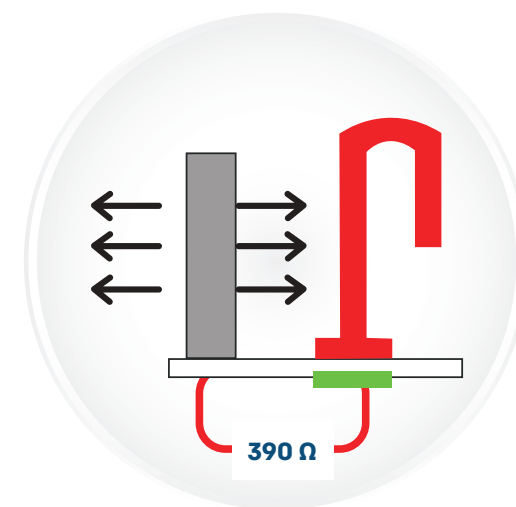

POWERED BY PATENTED O'PRO PROTECTION TECHNOLOGY

- The Patented O'Pro Protection Technology provides additional protection to the tank and heating element

- All this is done with the use of an Ohmic resistor to create a small resistance of 390Ω between the Magnesium anode and the Heating Element. As a result of the Ohmic resistance, the life of the water tank is increased by 50% and you get fresh, corrosion free hot water for your family, for a longer duration.

CHOOSING THE RIGHT WATER HEATER

Save Water !

At HSIL we urge everyone to use water efficiently in order to conserve this precious, natural resource and avoid water wastage by using it moderately.

CUSTOMER TESTIMONIALS

I will recommend this product. Excellent built and quality. Works absolutely fine.

- Kiran

This is a really superb product and quality wise it is awesome. I am really satisfied and will recommend it to all. And I am also happy with the support from the company.

- Chirag

The water heater looks extremely elegant and compact. It heats up the water in approximately 10-15 minutes and keeps it hot for a good 12-16 hours, even after switching off the power. Satisfied with the delivery time, price and installation turaround time after registration.

- Rahul Sharma

The water heater is best in price and adequate for bathroom & kitchen. Also, quality is superb.

- Chandan Raju

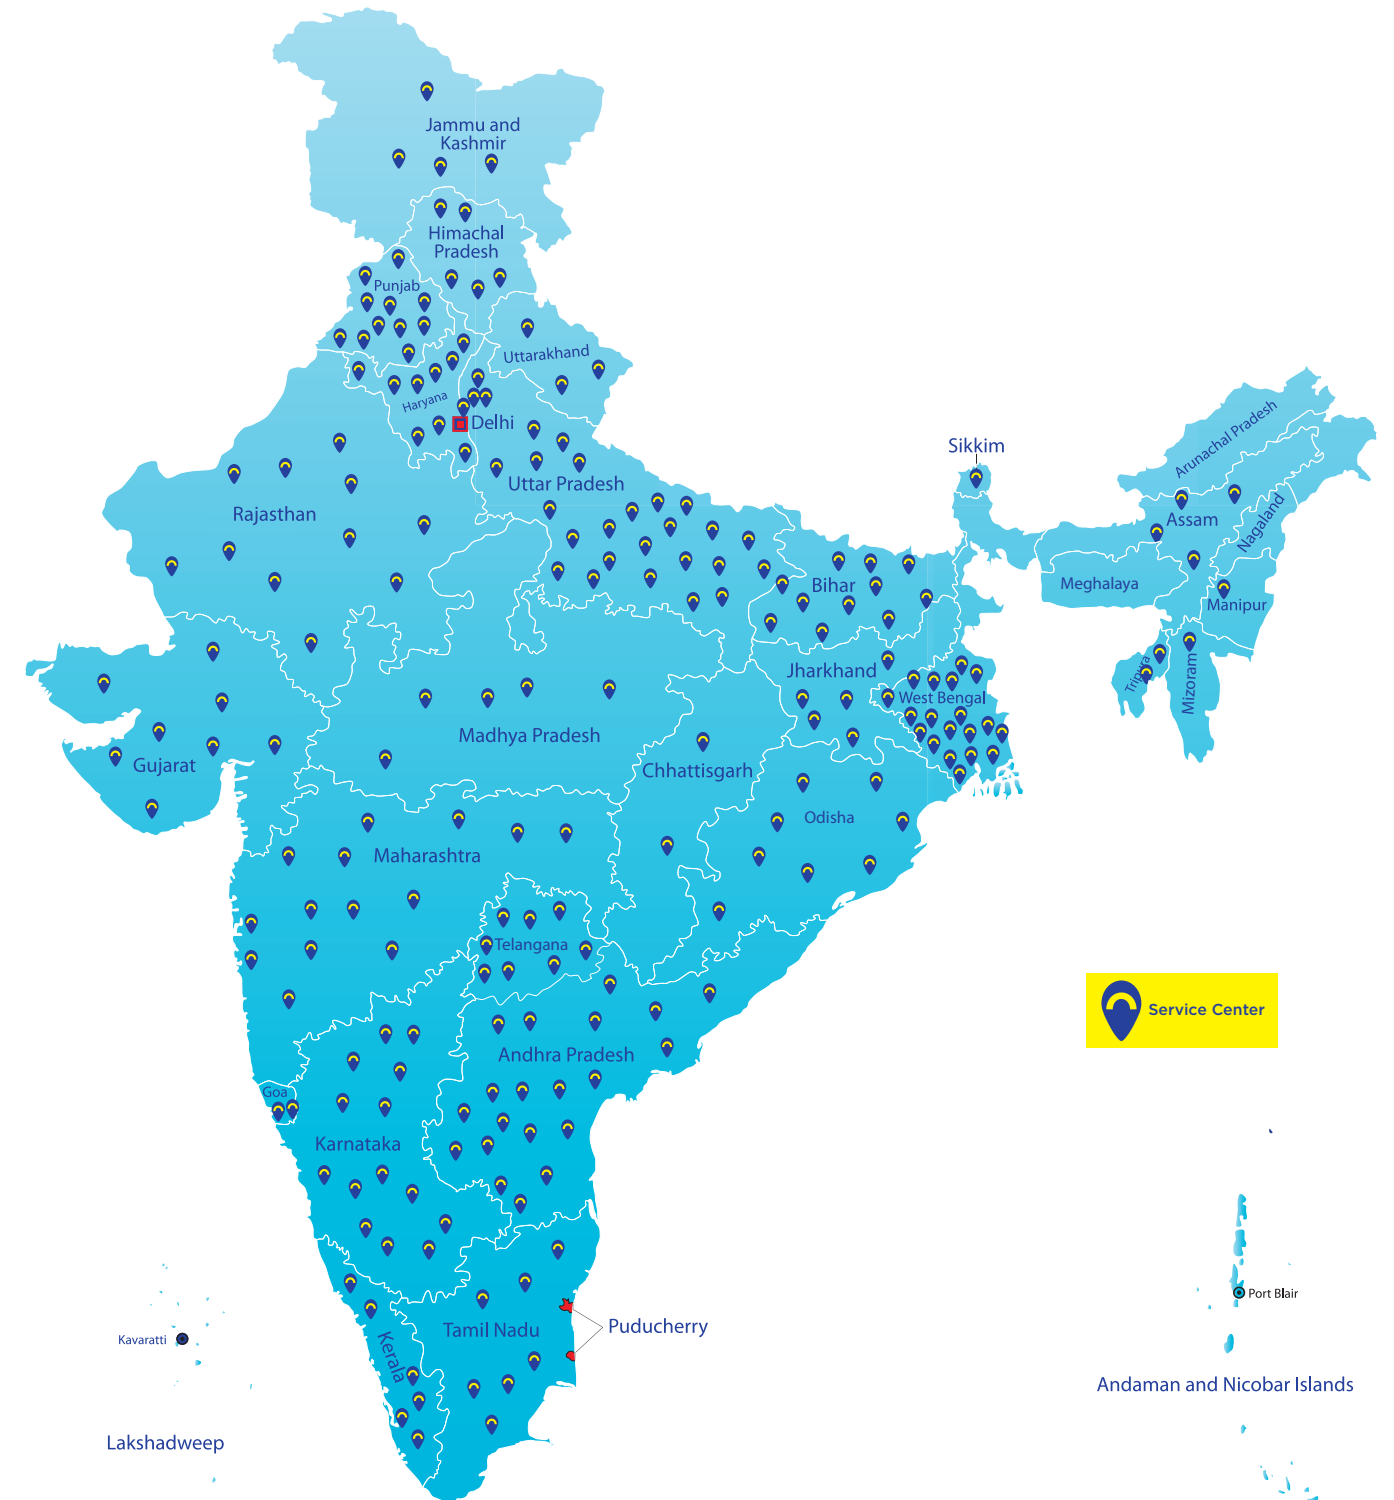

Very sturdy and good looking geyser. Water gets warm in just 5 minutes! Very happy :)

- Ankit Kapoor
