## Flute Laminator

- Available in Automatic / Semi automatic versions
- Same machines can be used for both board to board and board to flute pasting operations
- Both synthetic and starch glue can be used
- Application includes - pasting together of printed sheets as in notebook wrappers, fusion board and colour corrugated cartons

## High Speed Quality Inspection & Sorting Machine

- Applicable for cartons and labels
- Uses high precision camera and advanced software
- Suitable for regular paper board cartons as well as METPET cartons
- Inspection of quality standards of several operations including printing, varnishing, lamination, foil stamping, cutting creasing, braille embossing etc
- Brings authenticity to quality assurance
- Reduces labour
- Available in line with printing machine / offline systems / full sheet inspection formats
- Constantly evolving design and specs

## Offline Stripping and Blanking Machine

- Size -1020 x 960mm
- Available in different configurations including window hole remover, robotic pick up arms and conveyor
- Design to ensure that there are no scratches on the back side of the last sheet of each pile
- User-friendly, easy to operate system without need for expensive blanking tools
- HMI, PLC control system for ease of programming and precise blanking operation
- Suitable for products like metpet cartons, regular cartons, tags, jobs with windows etc

## Automatic Window Patching / Liner Carton Machines

- Models available for both duplex cartons and corrugated cartons
- Straight window and corner window models are possible
- Attachments with liner options for bag in box cartons
- Special attachment like punch and score / pick and place for creased windows
- High quality and productivity

.....

### Specialty V-cut Window Patching Machine

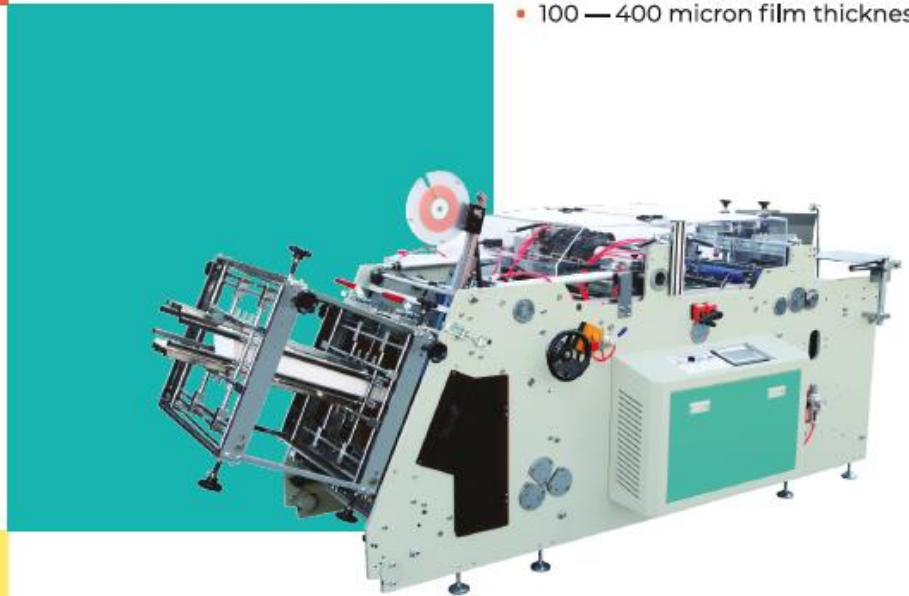

- High precision V-Cut +/- 0.5mm accuracy.
- Multi panel panorama window are possible.
- Inline embossing on film
- Inline hole punching on the window film.
- Pre printed pre foil stamping film pasting for branding and value addition.
- 100 — 400 micron film thickness.

.....

### Carton Erecting / Clam shell Machine

- Automatic Carton Erecting machine is suitable for make Burger, Noodles, French fries, Popcorn boxes, Meal boxes, sweet boxes, four corner tray forming through cold glue process.
- Hot melt gluing system is required for Double side lamination, PE coated or leak proof boxes.

.....

### Automatic Folder Gluer

- Available in different sizes - max. width ranging from 650/900/1100/1350 mm
- For duplex as well as offset printed colour corrugated cartons
- Crash lock bottom is a standard feature
- Special attachments like 4/6 corner devices are available
- Special Models available for clear cartons (Plastic cartons)
- From Shanghai Eterna - a member of the BOBST group
