## COMPANY PROFILE DESCRIPTION

We are a renowned manufacturer of surgical, scientific, and pathology equipment, offering innovative solutions to meet the crucial requirements of medical practitioners. Established in 2001 as a Sole Proprietorship firm, our company is headquartered in Dilshad Garden Industrial Area, Delhi, India, and serves clients nationwide.

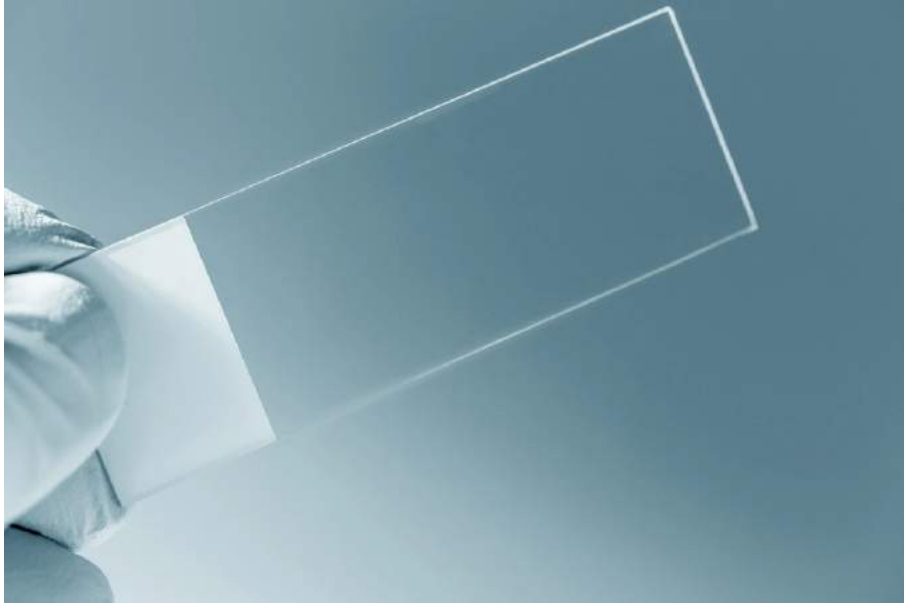

With a commitment to customer satisfaction, we have earned a reputation for our meticulous work approach and adherence to high-quality standards. Our extensive product range includes Microscope Glass Slides, Glass Cover Slips, Concavity Slides, Plastic Slide Boxes, and more. By consistently striving to maintain premium quality while optimizing costs, we provide superior products and deliver value to our esteemed customers.

To ensure exceptional quality, we conduct rigorous quality checks at every stage of production. We understand the importance of prompt responsiveness to client demands, and therefore, our team is dedicated to providing efficient after-sales support. These core values, combined with our competitive pricing, instil confidence in our widespread clientele.

At the helm of **Plaza Industrial Corporation** is **Mr. Vinod Aggarwal**, the Proprietor of the company. With his extensive experience, profound industry knowledge, and exceptional leadership qualities, we have established a strong foothold in the market, consistently staying ahead of our competitors.

**Plaza Industrial Corporation** is driven by a commitment to innovation, quality, and customer satisfaction. We continue to evolve and introduce market-leading solutions to meet the ever-changing needs of medical practitioners.

## MICROSCOPE GLASS SLIDES

Microscope glass slides are delicate, thin pieces of glass that serve as a foundation for examining objects under a microscope. These slides are meticulously crafted using top-quality, hand-picked glass sheets, ensuring optimal clarity and transparency. Designed with precision, they possess a uniform size and feature carefully ground edges for safe handling and seamless insertion into microscopes.

Glass Slides are carefully packaged in lint-free materials, safeguarding them from any potential contaminants and maintaining their pristine condition.

With their exceptional quality and attention to detail, microscope glass slides provide a reliable platform for conducting microscopic examinations with accuracy and clarity.

We cater to a wide range of client needs by offering a diverse selection of microscope glass slides in various sizes and qualities.

# ISI Certified

## ISI-Marked Glass Slides As per IS 3099 (Part 2)

Size: - 76mm x 26mm (-1mm)

Thickness: - 1mm-1.2mm

# 7105 Frosted Slide

Frosted Glass Slides with Butter Paper  
Between Each Slide & Vacuum-Packed Packet  
One end has a 19mm fine frosted surface  
on One side for marking

---

Size: - 76.2mm x 25.4mm(1"x3")  
Thickness: - 1mm-1.2mm

## Packaging Details

We ensure convenient packaging for our microscope glass slides. Each packet contains 50 slides, and these 50/100 packets are then securely packed in a corrugated box, sealed with tape, and further protected by white/yellow bags. This packaging method is designed to facilitate easy handling and transportation.

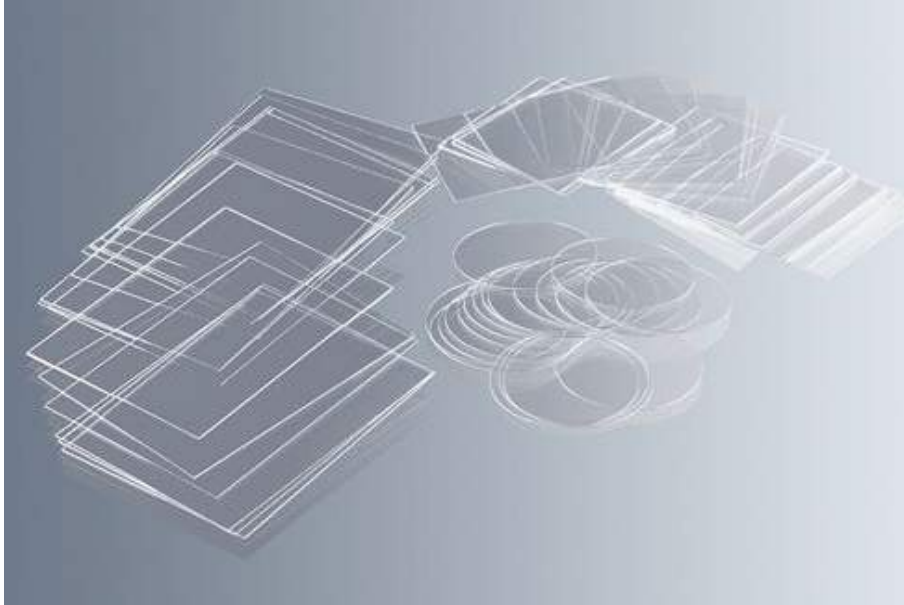

Please note the following details:

1. There may be a slight variation in size of up to +/-1mm and thickness of up to +/-0.1mm.
2. Our glass slides are pre-cleaned and ready for use.
3. If you require glass slides in non-standard or custom sizes, we can accommodate your specific requests upon demand.

## MICRO COVER GLASSES

Micro cover glasses, commonly referred to as coverslips, serve the crucial purpose of maintaining solid specimens in a flattened state and liquid samples in a uniformly thin layer. By securely holding the specimen in place, coverslips ensure optimal focus while safeguarding against dust and inadvertent disturbance. Our coverslips undergo meticulous packaging under controlled conditions to maintain their integrity and quality.

To cater to the diverse requirements of our customers, we offer a wide range of sizes and qualities for our products. This ensures that we can effectively serve the needs of everyone.

# ISI Certified Coverslips

Sizes –

18mmx18mm, 22mmx22mm,  
22mmx30mm, 22mmx40mm & 22mmx50mm
