VORTEX MIXER V-08

Feature:

- A variety of fixtures are available
- Powerful point vibration, continuous, speed-regulating.
- Adjustable speed control, from low speed vibration to high speed mixing.
- Stable operation for various mixing

Specification:

- Voltage: 220-230V
- Motor power: 60W
- Oscillation mode: Circle
- Oscillation diameter: 4mm
- Speed range: 0-2800rpm
- Working method: continuing/touching/speed regulation
- Working humidity: 0.8
- Speed/temperature display: scale
- size: 170*120*170mm
- weight: 3.5Kg
- Standard clamp: Rubber flat tray/conical rubber head
- Optional clamp: 1.5ml/15ml/50ml centrifuge tube clamp

V-08

Specification for spare parts:

A01	standard head, conical rubber head
A02	standard head, rubber plate flat tray
08-B1	1.5ml centrifuge tube/24 hole
08-B2	15ml centrifuge tube/6 hole
08-B3	50ml centrifuge tube/4 hole
